DETAILED ACTION

Response to Amendment

Amendment A filed 8/30/01 has been considered prior to this action. In said Amendment claims 14-20 have been canceled. Not clear is whether this cancellation has been carried out in response to the restriction requirement filed in Paper No. 3. However, further claims 21-45 have been entered. The outstanding claims have been considered prior to this Office Action. As a direct result of the newly added claims, pertaining to the second and third embodiments, an election of species is required from Applicant, as set forth below.

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: first embodiment (Figs. 1A-C); second embodiment (Figs. 2A-B); and third embodiment (Fig. 3).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims seem to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 FR 1.143).
